Response to Remarks

Applicant's arguments filed 09/22/005 have been fully considered but they are not persuasive with respect to the obviousness-type double patenting rejection. The effective filing date of the copending application would be an effective argument if the rejection in question were under 35 USC 102 or 103, however, it is not an effective argument with respect to a double patenting issue. A co-pending application filed on the same date, upon issuing as a patent, may change ownership during the period of patent protection. For this reason, at least, a terminal disclaimer is required.

Applicant's arguments, see Remarks, filed 09/22/2005, with respect to Figure 1 have been fully considered and are persuasive. The objection to the Drawings has been withdrawn.

Claim Rejections - 35 USC § 103/ Double Patenting

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 3, 4, 6-8, 12 and 25-26 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-17 of copending Application No. 10/050184. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of Application '184 include fluorinated multifunctional acrylates having an ether linking group. See claims 3 and 16.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
